No

**Q8: 5. If you consider the Derbyshire Dales Local Plan is not sound, please identify your reasons for this by ticking the appropriate box(es) The Derbyshire Dales Local Plan is not:** Positively prepared

**Q9: 6. Please explain why you consider the Derbyshire Dales Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate, being as precise as possible.**

It is not apparent that the plan is based upon an up to date objectively assessed need for infra structure particularly the use of shared space and a sports facility plan. There is no up to date indication of an assessment of local demand and deficiencies in provision related to the Plan Area.

Evidence is required, to inform 'How' 'When' and 'Where' this provision will be addressed.

Communities allocated development under the Local Plan should know what facilities and services are required to make development sustainable. There does not seem to be an integrated approach to development and infrastructure which is contrary to the Core principal of achieving sustainable development NPPF 7

**Q10: 7. If you have answered Yes to Q2 or Q3 and wish to support the legal compliance or soundness of the Derbyshire Dales Local Plan or its compliance with duty to co-operate, please use the box to set out your comments.** *Respondent skipped this question*

**Q11: 8. If you consider that the Derbyshire Dales Local Plan is not legally compliant or is not sound, please set out what change(s) you consider necessary to make it legally compliant or sound, having regards to your response to Q6 above. Please set out below in detail your suggested revised wording of any policy or text and explain why your suggested change will make the Derbyshire Dales Local Plan legally compliant or sound. Please be as precise as possible.**

The Local Plan needs to be consistent with NPPF 7 Achieving Sustainable Development (a social role)

The plan should be based upon up to date objectively assessed infrastructure needs (recreational facilities) The Plan should identify where undersupply is and state how and when the undersupply is going to be addressed.

The statements related to sports facilities are too vague, there are too many unanswered questions. Communities that have been allocated development have been informed by DDDC that with additional development will come improved services and facilities - at this time it is not apparent what those improvements might be.
