NPPF 155 states 'Early and meaningful engagement and collaboration with neighbourhoods local organisations and business is essential. A wide section of the community should be proactively engaged so there is a collective vision, and a set of agreed priorities for sustainable development' Tansley Parish Council were invited to one Parish Council seminar, at this meeting we were informed about the different stages of the Plan -- this one off meeting could never be described as 'meaningful engagement'

Tansley Parish Council has not been invited to discuss site allocations, or asked for their views related to infrastructure requirements. The District Council gave Tansley no indication of finite numbers, sites for allocation have come forward in a piecemeal way, discussions would have been helpful, and given the community more confidence in the allocation process, however there is a strong feeling of having allocations imposed upon the community because of the lack of liaison. There are only a handful of villages with large allocations, surely those settlements need to know how the substantial increase in their population will be mitigated, - although the village has been allocated almost 100 new homes Derbyshire Dales have not thought it appropriate to seek the views of residents, who will be effected by this additional development.

The Plan appears to be based upon land availability, with little concern for sustainability especially related to Tansley
