

The Occupier

17<sup>th</sup> August 2016

Dear Customer

**Important Information – Restricted Access**

I would like to advise you about National Grid's plans to carry out some gas main replacement work on Church Street (between the junction of The Knoll and the junction of Goldhil), Old Coach Road and Mais Close. This work which will be carried out by tRiIO<sup>®</sup> working on behalf of National Grid, will start the **Tuesday 30<sup>th</sup> August** and we expect it to last for **approximately 6 weeks**.

We will try and complete as much of the work under 2 way traffic lights on Church Street. However, where necessary a road closure on Church Street will be put in place to enable these works to be carried out safely. Access to your home/business will be maintained via the diversion route advertised.

If your gas supply will be affected during our works, you will receive a separate letter detailing how you may be affected prior to our work starting.

Please be assured every effort will be made to minimise any inconvenience this essential work may cause and I would like to thank you for your patience and cooperation. If you would like further information, please contact us on **0800 096 5678**.

Yours faithfully  
Customer Operations

**Securing our energy supply for future generations.**
